Metamark MD-BW – Bus Wrap Vinyl / Blockout Vinyl

Metamark MD-BW has been developed for temporary flat panel advertising, and specifically to meet the demanding needs of 'bus wrapping'. The 100 micron film allows quick and easy application to flat panels. It has a black semi-permanent adhesive, providing high opacity, and allowing the graphics to be removed cleanly up to 6 months after application. Note: A bus wrap is different from a vehicle wrap film.
