Metamark MD-CV – Premium Clear Vision (Perforated One-Way Film)

Metamark MD-CV is a premium grade perforated one-way vision film, and is the original 'Panorama 1540' specification. It is a black / white laminated film, with 40% open area and 1.5mm perforations, and satin white finish. Visibility is maintained from the inside, being suitable for advertising applications on vehicles and buildings. The product can be removed cleanly up to 6 months after application. Overlaminating is recommended to maintain visibility in wet weather. (Not recommended for application to polycarbonate) .

Metamark MD-CR – Optically Clear Polyester Window Film

Metamark MD-CR is a 50 micron clear polyester window film that offers an optically clear finish when applied to glass. The ultra-clear adhesive system is permanent and allows wet application and clean removal in the short term. For transparent window graphics the product offers greater clarity than a PVC or self static cling and can produce high definition images. It can be printed in reverse and applied to the inside of the glass, for point of sale and advertising.

- 50 Micron Polyester
 - Permanent Adhesive (Removable up to 6 months)
 - Durability 2 Years (Unprinted)
 - For Optically Clear Window Graphics
