Metamark MD-SC – Static Cling (Digital Self-Cling)

This 170 micron soft PVC self cling material can be cleanly removed from glass. It has no adhesive so is ideal for promotional use. Print on the static cling film, then fit this surface to the window, and then remove the backing sheet. The white film provides opacity. Also available in Clear.

- 170 Micron Soft PVC
- Self Cling Both Sides (Non Adhesive)
- Indoor Use
- For Easily Removable Window Graphics and Stickers

MD-SC-100 White Static Cling

MD-SC-105 Clear Static Cling

Roll Width	Roll Length	price £ per roll + vat		
		1-2 rolls	3-4 rolls	5+ rolls
760mm	5m	20.20		
	25m	90.30	84.90	78.10
1370mm	5m	30.20		
	25m	134.50	121.70	112.80

Metamark MD-WF – Frost

Metamark MD-WF Frost has been developed to offer stunning, opal, semi-transparent window graphics. Once applied, the printed areas produce higher visual impact than a print on gloss clear film, while unprinted areas retain the appearance of frosted glass. It offers excellent opportunities for office partitions, retail applications, restaurants and pubs.

- 70 Micron Monomeric Calendered Vinyl
- Permanent Clear Solvent-Based Adhesive
- Fire Rating Class B
- Durability 3 Years (unprinted)
- For Frosted Window Graphics
