

## Accessories

### Plotter Blades – Tungsten Carbide Compatible Blades

A range of high quality tungsten carbide blades compatible with most common plotters. Where there are different angles shown, the 30° blades are suitable for standard vinyls, the 45° for thicker materials such as reflective or fluorescent, and the 60° for sandblast and polyester films.

Code	Description	Code	Angle	Price £ each + vat	
				1-4	5+
<b>Gerber</b>	GX, Sprint, Super Sprint, S GS, HS	TC10-30	33°	10.50	9.45
