

# Window Film and Static Cling

## Window Tinting Film

Durability: 10 years

## Polyester Tinting Film

A polyester self adhesive professional grade window tinting film available in three finishes for vehicle or architectural applications.\* The film reduces heat gain, light transmission and significantly reduces the effect of damaging ultraviolet rays. It can be used to provide one-way visibility or to improve the appearance of glass panels. (\*Limitations apply for use on vehicles and double glazing panels)

**V-LIMO** Limo Black      **V-MIRR** Mirror Silver      **V-SM** Smoke Grey
