

Etch Glass Effect

Metamark Crystal, Dusted and Silver Etch – Premium Etch Glass Films

Metamark's premium quality etched glass effect vinyls are available in three distinctive finishes. Each of these window films provide a striking effect when producing decals, graphics or for architectural use when covering complete areas of glass. The permanent solvent adhesive allows wet application and clean removal. Crystal Etch offers a distinctive glitter effect, Silver Etch gives higher opacity and greater definition for text, while Dusted Etch is more subtle and provides a higher level of visibility.

- Durability up to 7 years
 - 70 Micron Polymeric Glass Film
 - Permanent Solvent Adhesive
 - Fire Rating: Class B
 - Light Transmission: Crystal 57%, Dusted 80%, Silver 56%
