

Polished and Brushed Metallised Films

Exterior Brushed Polishes – Metallised Films / 5 years Outdoor

Metamark Exterior Brushed Aluminium and Brushed Gold Metallised Films provide the opportunity for stunning vehicle decals, fascia panels and other outdoor signage. The product offers exterior durability of up to 5 years, and can be used on smooth, flat or slightly curved surfaces. Both versions are brushed silver on the adhesive side. [Not recommended for compound curves or for wet application.]

- Durability up to 5 years
- 65 micron Metallised PVC
- Brushed Silver on Reverse of Both Films

Brushed Polishes – Promotional Grade

Metamark Brushed Polishes are suitable for promotional use, offering either a brushed aluminium or brushed gold finish. The metallised films are laminated to a white PVC to allow greater adhesion than standard polyester polishes. Metamark Brushed Aluminium and Gold are top coated for screen printing and are suitable for interior or short term exterior applications and can be applied to flat or slightly curved surfaces.

- Indoor or Short Term Outdoor Use
- 125 micron Metallised Polyester / PVC
- White on reverse of Film

SignGold™ – Genuine 22 Carat Gold Leaf / PVF

SignGold™ is constructed of a genuine 22 carat gold leaf film laminated to a highly durable PVF base film. It provides a unique computer cut alternative to hand gilding and has a satin finish. The 40 micron film cuts and weeds like a cast vinyl, will conform to curves and rivets, and provides 10-14 year exterior durability.

- Durability 10 to 14 years
- 40 micron PVF Film
- Genuine 22ct Gold Leaf
