

Duracoat Cartridges

DURACOAT Cartridges for the Gerber Edge®

Durability: 3 - 5 years

Thermal Transfer Ribbons

Duracoat cartridges have been specifically developed for optimal print performance on the Gerber Edge® whilst offering substantial cost savings. Available in 50 metre and 92 metre lengths (less popular colours are available at 23 metres only) Duracoat Cartridges are also refillable allowing further print cost savings. The Ultra UV Process Yellow offers significantly greater UV resistance for process colour prints. The UV resistance of all prints can be further enhanced by overprinting with the UV Guard clear foil, which will also improve abrasion resistance. A colour card is available on request.

Process Colours

Available at 50m and 92m

IDC-PB	Process Black	IDC-PC	Process Cyan	IDC-PM	Process Magenta	IDC-PY	Process Yellow
IDC-PU	Process Yellow Ultra UV						

Colour	Length	1 to 4	5 to 9	10 - 14	15 - 19	20 - 29	30 +
Process Black Cartridge	50m	67.89	65.54	63.77	61.99	60.80	59.02
	92m	121.00	116.78	113.63	110.48	108.39	105.22
Process Colour Cartridge	50m	74.83	72.23	70.27	68.33	67.02	65.05
	92m	134.07	129.39	125.91	122.39	120.07	116.58

Super Opaque White and Black

Available at 50m and 73m

IDC-400	White	IDC-411	Super Opaque Black

Effective 21 January 2008

Duracoat Refills

DURACOAT Edge® Refills

Durability: 3 - 5 years

Thermal Transfer Ribbons

Duracoat refills have been specifically developed for optimal print performance on the Gerber Edge® whilst offering substantial cost savings. Available in 50 metre and 92 metre lengths (less popular colours are available at 23 metre and 92 metres), you can refill any Duracoat cartridge in just a few minutes allowing you to reduce your print cost even further. The Ultra UV Process Yellow offers significantly greater UV resistance for process colour prints. The UV resistance of all prints can be further enhanced by overprinting with the UV Guard clear foil, which will also improve abrasion resistance. A colour card is available on request.
