

Wasatch (Including Troop v5)

Metamark Profiles Installation

The following instructions describe how to import Metamark profiles into the RIP. If you need any further assistance please contact the sales office on 0845 345 5645:

1. Download the file and unzip
2. Open the folder c:\wwrip\configurations\.. and select the relevant printer.
3. Paste the complete media folders into this directory.
4. The profiles will now be available to open on the RIP.
