

Metamark MD-PP240

240gsm Photo Gloss Paper

METAMARK
The Materials Company

Product Description

Metamark MD-PP240 Photo Paper is suitable for high resolution fine art prints, offering brilliant colour reproduction. This high grade Photo Paper has a glossy finish, and features a PE backing to give layflat stability. It provides a good drying time, is waterfast, and will give long term indoor colour fastness. Typical Applications are Photographs, advertising, poster frames and fine art applications.

Material Handling

- Ensure that the material has reached room temperature and a relative humidity of 50% before printing.
- Do not handle the face film directly and ensure it is free from dust and static.

Printing Guidelines

- Suitable for use on Solvent and Eco Solvent inkjet printers. Always perform a test print first.
- Ensure that the correct profiles and heater settings are used. Most profiles are available for download from www.metamark.co.uk.
- The product is designed to be used without overlaminating.
- The paper does not become touch dry instantly. Avoid use of a take up roller and do not stack prints until fully cured.
- The durability of the finished print is dependent on the inks and printer.

Roll Presentation

Roll sizes	760mm x 30m 1370mm x 30m
Presentation	Printing face outwards

Durability

Shelf Life	1 year
Durability	Indoor use

Warranty: Metamark (UK) Limited warrants to its customers that graphics produced using Metamark Digital Media will remain in good condition without excessive fading or colour degradation for the specified life time of the ink used, when correctly stored, printed and applied in accordance with procedures outlined in the technical literature. If within the specified years of normal use Metamark DigitalVinyl becomes ineffective for its intended use, then Metamark will provide sufficient material to produce a new replacement marking, and will at its own discretion, contribute an allowance in additional material towards the costs involved in replacing the graphics. In all cases, the converter is held fully responsible for storing, processing and applying the unconverted materials in accordance with Metamark's technical specifications. Metamark (UK) Limited will not be liable for any indirect or consequential loss or damage, and will not provide any allowance against improper usage, application accident, negligence, chemical damage or improper repair. **Please Note:** The above data is given in good faith to provide an indication of the performance of the product. Purchasers should consider the suitability of each product for its intended use and the purchaser assumes all risks in connection with such use. Seller shall not be liable for damages in excess of the purchase price of the product nor for incidental nor consequential loss.
