

Metamark MD-TB

200gsm Textile Banner

METAMARK

The Materials Company

Product Description

Metamark MD-TB is a lightweight textile banner, for use on solvent inkjet printers. It has a special polymer coating on one side to produce outstanding image vibrancy, resolution and colour gamut. It is highly flexible, tear resistant, full waterproof and fire retardant. Typical applications include retractable banner stands, framing and tensioning systems, promotional tents, backlit, banner, exhibition systems

Material Handling

- Ensure that the material has reached room temperature and a relative humidity of 50% before printing.
- Do not handle the face film directly and ensure it is free from dust and static.

Printing Guidelines

- Suitable for use on Solvent and Eco Solvent inkjet printers. Always perform a test print first.
- Ensure that the correct profiles and heater settings are used. Most profiles are available for download from www.metamark.co.uk.
- Allow 24 hours after printing for the ink to gain abrasion resistance. Avoid use of take up roller and do not stack prints until fully cured.
- The durability of the finished print is dependent on the inks and printer. Check suitability before use.

Fabric Specifications

Fabric	Polymer coated 100% PES fabric
Tensile Strength	140 N/5cm (warp) / 100 N/5cm (weft)
Weight	200gsm
Thickness	280 micron
Print Surface	Single side (print face outwards)
Tear resistance	30N (warp) / 30N (weft)
Translucency	32%

Roll presentation

Roll sizes	760mm x 30m 1370mm x 30m
------------	-----------------------------

Durability

Shelf Life	Long term.
Fire Rating	Fire retardant to B1
External weathering	Long term indoor. Waterproof for outdoor use.

Finishes

Finishes Available	MD-TB	White Textile Banner

Warranty: Metamark (UK) Limited warrants to its customers that graphics produced using Metamark Digital Media will remain in good condition without excessive fading or colour degradation for the specified life time of the ink used, when correctly stored, printed and applied in accordance with procedures outlined in the technical literature. If within the specified years of normal use Metamark Digital/Vinyl becomes ineffective for its intended use, then Metamark will provide sufficient material to produce a new replacement marking, and will at its own discretion, contribute an allowance in additional material towards the costs involved in replacing the graphics. In all cases, the converter is held fully responsible for storing, processing and applying the unconverted materials in accordance with Metamark's technical specifications. Metamark (UK) Limited will not be liable for any indirect or consequential loss or damage, and will not provide any allowance against improper usage, application accident, negligence, chemical damage or improper repair. **Please Note:** The above data is given in good faith to provide an indication of the performance of the product. Purchasers should consider the suitability of each product for its intended use and the purchaser assumes all risks in connection with such use. Seller shall not be liable for damages in excess of the purchase price of the product nor for incidental nor consequential loss.
