

Metamark MetaFlex

Banner Grade Vinyl

Product Description

MetaFlex is a super soft pvc formulated to resist plasticiser migration and creasing inherent to application onto flexible pvc banners or awnings. The 80 micron film is supplied with a permanent adhesive and offers 3 years durability.

Typical Applications

- For use on flexible PVC banners.
- It is not suitable for application onto curtain sided vehicles.

Application

- Suitable for computer cut graphics.
- Dry application recommended.

Finishes Available	Black and White Satin Finish
--------------------	------------------------------

Durability

Shelf Life	2 years
External weathering	3 years in vertical exposure under northern European conditions.
Fire Rating	Self-extinguishing. DIN75200

Warranty: Metamark (UK) Limited warrants to its customers that completed decorative markings which utilise Metamark SignVinyl will remain in good condition without excessive fading or colour degradation for the specified life time of each material when correctly stored and applied in accordance with procedures outlined in the technical literature. If within the specified years of normal use Metamark SignVinyl becomes ineffective for its intended use, then Metamark will provide sufficient material to produce a new replacement marking, and will also, at its own discretion, contribute an allowance towards the costs involved in replacing the graphics. **Please Note:** The above data is given in good faith to provide an indication of the performance of the product. Purchasers should consider the suitability of each product for its intended use and the purchaser assumes all risks in connection with such use. Seller shall not be liable for damages in excess of the purchase price of the product nor for incidental nor consequential loss.
