Metamark MD3 – Intermediate Grade Calendered Vinyl

MD3 is a high quality intermediate calendered vinyl, manufactured with Metamark's distinctive coating technology. It is suitable for intermediate grade applications, such as short-term vehicle graphics, display, point of sale and exhibition, and can be applied to most flat or slightly curved surfaces. MD3 features the latest Apex adhesive for your assurance of high performance and clean removal from a permanent adhesive.

	50m	164.40	156.50	149.10	141.70
1600mm	25m	86.50			
	50m	173.20	164.90	157.10	149.20

Metamark MD3A-B – Intermediate Grade Blockout Vinyl with 'MetaScape' System

Metamark MD3A-B features the 'MetaScape' adhesive system, offering faster and easier application by providing air with an exit route from under the graphic, with greater repositioning during application. This is combined with a grey pigmented solvent-based adhesive to provide increased opacity and preventing the substrate colour showing through. Metamark's 70 micron white face film with its distinctive coating technology produces outstanding print performance.

- 70 Micron Calendered Vinyl MD3A-B White Gloss Matched Overlamine - MetaGuard 300
- 'MetaScape' Permanent Grey Solvent-Based Adhesive
- Layflat PE Liner
- Fire Rating Class B
- Durability 5 Years (unprinted)
