

Window Graphics

Metamark MD-WF – Frost

Metamark MD-WF Frost has been developed to offer stunning, opal, semi-transparent window graphics. Once applied, the printed areas produce higher visual impact than a print on gloss clear film, while unprinted areas retain the appearance of frosted glass. It offers excellent opportunities for office partitions, retail applications, restaurants and pubs.

- 70 Micron Monomeric Calendered Vinyl MD-WF Window Frost
- Permanent Clear Solvent-Based Adhesive
- Fire Rating Class B
- Durability 3 Years (unprinted)
- For Frosted Window Graphics

MetaScape Frost – Etch Glass Films with MetaScape system

For faster, trouble-free application of glass manifestation, 'MetaScape' Frost offers ease of application by providing air with an exit route from under the graphic. Frosted glass window graphics with a smooth consistent finish can be produced, whether computer-cut or for total-coverage architectural applications. The product has an 80 micron monomeric calendered frosted film.

- Outdoor durability up to 3 years M4A-OF MetaScape Frost
- 80 Micron Etch Glass Film
- 'MetaScape' Permanent Clear Solvent-Based Adhesive
- Fire Rating: Class B
- Light Transmission: 85%
