

Etch Glass Effect

Metamark Crystal, Dusted, Silver Etch and Opal Haze – Premium Etch Glass Films

Metamark's premium quality etched glass effect vinyls are available in four distinctive finishes. Each of these window films provide a striking effect when producing decals, graphics or for architectural use when covering complete areas of glass. The permanent solvent adhesive allows wet application and clean removal. Crystal Etch offers a distinctive glitter effect, Silver Etch gives higher opacity and greater definition for text, while Dusted Etch is more subtle and provides a higher level of visibility.
