

Etch Glass Effect

MetaScape Frost – Etch Glass Films with MetaScape system

For faster, trouble-free application of glass manifestation, 'MetaScape' Frost offers ease of application by providing air with an exit route from under the graphic. Frosted glass window graphics with a smooth consistent finish can be produced, whether computer-cut or for total-coverage architectural applications. The product has an 80 micron monomeric calendered frosted film.

- Outdoor durability up to 3 years

MetaScape Crystal, Dusted, Silver Etch and Opal Haze – Premium Etch Glass Films with MetaScape system

For faster, trouble-free application of glass manifestation, 'MetaScape' Etches offer ease of application by providing air with an exit route from under the graphic. MetaScape Crystal Etch, Dusted Etch and Silver Etch films are polymeric calendered vinyls for producing fine window decals and manifestation. The 70 micron film, high quality release liner and adhesive provide fast cutting and easy weeding on all computerised sign making equipment.

- Durability up to 7 years
