

# MetaGuard 206

Dry Wipe Overlamine

## Product Description

Metaguard 206 is a high gloss overlamine and can be applied over printed Metamark digital media, to create dry wipe panels with printed graphics. The product is suitable for use with Dry Wipe marker pens only. The specially coated PVC film provides easy clean removal of dry wipe pens, and also offers good layflat dimensional stability. MetaGuard 206 is suitable for overlaminating prints on flat surfaces, for indoor use only.

## Material Handling

- Ensure that the material has reached room temperature and a relative humidity of 50% before use.

## Overlaminating

- Suitable for use on Solvent, Eco Solvent and Latex inkjet prints on Metamark print media
- Allow the inks to cure before overlaminating, this is usually 24-48 hours
- This product is suitable for cold lamination using a laminator. Apply around 30°C on the top roller to prevent silvering of the adhesive.
- Not suitable for wet application.
- Refer to [www.metamark.co.uk](http://www.metamark.co.uk) for application guidelines.

## Use of product

- Test suitability of pens before use.
- Use soft non abrasive cloth to clean the surface.
- To remove any built up staining use warm soapy water and non abrasive cloth.

## Face Film

Face film	Coated Polymeric PVC
Gauge	100 micron nominal
Tensile Strength	15N/mm <sup>2</sup> MD nominal.
Elongation at break	180% MD nominal

## Adhesive

Type	Permanent clear acrylic
Thickness	20micron nominal
Adhesion to steel 20 mins	7N/25mm nominal
Adhesion to steel 24 hour	18N/25mm nominal
Application temperature	+10°C - +30°C

## Release Liner

Print	Unprinted
Weight	130gsm

## Finishes

Finish Available	MG-206	Clear Gloss
------------------	--------	-------------

## Roll Presentation

Roll sizes	675mm x 50m 1350mm x 50m
Presentation	Laminate outwards, on a 76mm core.

## Durability

Shelf Life	1 year
Internal weathering	3 Years. This refers to the overlamine and not the protection that it gives the printed image.
Regulations	REACH compliant

**Warranty:** Metamark (UK) Limited warrants to its customers that graphics produced using Metamark Digital Media will remain in good condition without excessive fading or colour degradation for the specified life time of the ink used, when correctly stored, printed and applied in accordance with procedures outlined in the technical literature. If within the specified years of normal use Metamark DigitalVinyl becomes ineffective for its intended use, then Metamark will provide sufficient material to produce a new replacement marking, and will at its own discretion, contribute an allowance in additional material towards the costs involved in replacing the graphics. In all cases, the converter is held fully responsible for storing, processing and applying the unconverted materials in accordance with Metamark's technical specifications. Metamark (UK) Limited will not be liable for any indirect or consequential loss or damage, and will not provide any allowance against improper usage, application accident, negligence, chemical damage or improper repair. **Please Note:** The above data is given in good faith to provide an indication of the performance of the product. Purchasers should consider the suitability of each product for its intended use and the purchaser assumes all risks in connection with such use. Seller shall not be liable for damages in excess of the purchase price of the product nor for incidental nor consequential loss.
