Metamark (UK) Limited Luneside, New Quay Road, Lancaster, LA1 5QP, UK

Warranty: Metamark (UK) Limited warrants to its customers that completed decorative markings which utilise Metamark Colour Change Wrapping Film will remain in good condition without excessive fading or colour degradation for the specified life time of each material when correctly stored and applied in accordance with procedures outlined in the technical literature. If within the specified years of normal use Metamark Colour Change Wrapping Film becomes ineffective for its intended use, then Metamark will provide sufficient material to produce a new replacement marking, and will also, at its own discretion, contribute an allowance towards the costs involved in replacing the graphics.

Performance you can trust

Cylinder Cast Wrapping Film

MM-CC Series Colour Change Wrapping Film

MM-CC Series is a proven and highly effective full, or partial, vehicle wrap solution. This range enables a vehicle colour change without under-going expensive resprays. and helps transform and customise a range of vehicles, including fleet and commercial.

MM-CC Series provides a non-permanent wrap solution, with clean and trouble-free application, along with minimal residue on removal. It is manufactured with a 100 micron film giving high adrasion resistance.

MM-CC Series comes in a wide range of colours, and special colour matches can be offered for projects such as fleet branding.

Why choose to colour change?

- Quick and cost-effective way to transform vehicles.
- Reversible, the film can be removed cleanly.
- Protection of original vehicle paintwork from sun and mild abrasions.
- Preserves the market resale of vehicles.
- Flawless finish is achieved as the conformable film reacts to all vehicle lines, curves, rivets and corrugations.
- Engineered for trouble-free application.

Adhesive Technologies

MM-CC Series is available with the choice of two adhesive technologies, designed to optimise ease of handling.

MM-CC Series

MM-CC 90 | CCG 90

Silver

MetaScape® adhesive offers faster, trouble-free application of larger areas, for flat or curved surfaces. MetaScape® is suitable for dry application methods, resulting in a durable wrap that is ready much sooner after installation.
