

## MetaGuard UV Series

PVC Overlamine for UV Prints

**MetaGuard UV** has been developed for the finishing and protection of UV Prints. The specially formulated solvent based adhesive gives a high bond to the low energy surface of UV prints and overcomes silvering.

Available in a Matt or Gloss finish, it offers a very high level of clarity and definition to the print. The 70 micron film gives a high level of abrasion resistance, and can be used on flat or simple curves.

**Performance you can trust**
