

Metamark MD3-A Series

Intermediate Grade 5 Year Digital Vinyl
with MetaScape® System

Metamark MD3-A offers a very high level of performance for medium term applications including point of sale, signing, exhibition and display, vehicle graphics and applications onto most flat or gently curved surfaces.

MD3-A features the MetaScape® system, offering ease of application by providing air with an exit route from under the graphic. The adhesive offers greater repositioning during application, and makes for faster, trouble-free application of larger graphics onto smooth flat or slightly curved surfaces.

Performance you can trust
